

Goleta Sanitary District Job Description

Job Title: Plant Maintenance Technician III
Department: Facilities Maintenance
Reports To: Facilities Maintenance Supervisor
FLSA Status: Non Exempt (Non-Salary)

SUMMARY

Under general supervision, performs a wide variety of skilled tasks in the installation, repair, and maintenance of wastewater treatment plant mechanical, and performs other duties as assigned. This is the advanced journeyman level Plant Maintenance Technician responsible for handling the more complex maintenance and repair duties. This position is distinguished from the Plant Maintenance Technician levels I and II by the level of responsibility and the exercise of functional and technical supervision of lower level staff, and by the complexity of duties.

ESSENTIAL DUTIES AND RESPONSIBILITIES include the following. Other duties may be assigned.

Assigns and directs work of Maintenance Technician I and Maintenance Technician II in the absence of the Facilities Maintenance Supervisor and Instrumentation Technician. Assists supervisor in the training and development of level I and II Plant Maintenance.

Dismantles, repairs, and overhauls and reinstalls mechanical pumps, valves, engines, blowers, pneumatic valves, lab equipment and air compressors.

Repairs, installs and maintains clarifier machinery, back flow prevention devices, digester equipment, bulk chemical storage and feed systems, flash mixers and motor vehicles.

Operates drill press, gas welder and cutter, electric welders, arbor press, milling machine, pipe threader, and specialized test equipment.

Researches equipment and parts information and orders the necessary parts to maintain equipment.

Coordinates activities with operations personnel and contractors to ensure treatment processes are not impacted.

Performs a variety of support level engineering, design and fabricating duties

Operates and maintains various types of equipment such as backhoes, cranes, front end loaders, articulated wheel loaders, hydro trucks.

QUALIFICATIONS To perform this job successfully, an individual must be able to perform each essential duty satisfactorily. The requirements listed below are representative of the knowledge, skill, and/or ability required. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

Knowledge Of: Tools, materials, and equipment used in maintaining wastewater treatment plant equipment; methods and procedures for maintenance and repair of mechanical equipment, gas and diesel engines, pumps, and valves. Standard practices, methods and techniques used in the mechanical trades; effects of hazardous chemical conditions; occupational hazards encountered in a wastewater treatment plant and safety precautions and practices necessary to perform the work.

Ability To: Work safely and effectively perform complex and skilled maintenance functions to repair and maintain plant equipment and facilities; machine and fabricate replacement parts; estimate costs, time and labor requirements; evaluate equipment problems; read plans and diagrams for equipment and parts; keep maintenance logs and other records and schedule maintenance work using computerized maintenance programs; perform a variety of support engineering, fabricating, and design duties related to upgrading existing equipment; give clear and accurate written and oral work instructions; establish and maintain effective working relationships with co-workers and others encountered in the course of work; able to exercise independent decision-making.

EDUCATION and/or EXPERIENCE

High school diploma or general education degree (GED)

Minimum of four years of work experience in the wastewater field in the repair and maintenance of mechanical equipment such as pumps, valves, and engines; or an equivalent combination of training and experience.

LANGUAGE SKILLS

Ability to read and interpret documents such as safety rules, operating and maintenance instructions, and procedure manuals. Ability to write routine reports and correspondence. Ability to speak effectively on a one on one basis and in a small group situation and with customers or employees of organization.

MATHEMATICAL SKILLS

Ability to add, subtract, multiply, and divide in all units of measure, using whole numbers, common fractions, and decimals. Ability to compute rate, ratio, and percent and to draw and interpret bar graphs.

REASONING ABILITY

Ability to apply common sense understanding to carry out instructions furnished in

written, oral, or diagram form. Ability to deal with problems involving several concrete variables in standardized situations.

CERTIFICATES, LICENSES, REGISTRATIONS

A valid California Class B driver's license with a satisfactory driving record

Possession of a current California Water Environment Association (CWEA) Grade II Mechanical Technologist Certificate and/or ability to obtain a CWEA Grade III Mechanical Technologist Certificate within 18 months of hire.

State of California Pesticide Applicators license desirable

Ability to obtain an American Red Cross First Aid and Cardiopulmonary Resuscitation (CPR) certificates

PHYSICAL AND MENTAL DEMANDS

While performing the duties of this job, the employee is regularly required to walk; use hands to finger, handle, or feel; reach with hands and arms; climb or balance; stoop, kneel, crouch, or crawl; talk or hear; and taste or smell. The employee frequently is required to stand. The employee is occasionally required to sit. The employee must regularly lift and/or move up to 25 pounds, frequently lift and/or move up to 50 pounds, and occasionally lift and/or move up to 100 pounds. Specific vision abilities required by this job include close vision, distance vision, color vision, peripheral vision, depth perception, and ability to adjust focus.

The employee is occasionally required to work in confined spaces or other areas with potentially hazardous atmospheres requiring the use of self-contained breathing apparatus (SCBA) or respirators and in that respect is required to follow the District's facial hair policy.

WORK ENVIRONMENT

The work environment characteristics described here are representative of those an employee encounters while performing the essential functions of this job. Reasonable accommodations may be made to enable individuals with disabilities to perform the essential functions.

While performing the duties of this job, the employee is regularly exposed to wet and/or humid conditions, moving mechanical parts, fumes or airborne particles, toxic or caustic chemicals, outside weather conditions, risk of electrical shock, and explosives. The employee is frequently exposed to vibration. The employee is occasionally exposed to high, precarious places. The noise level in the work environment is usually loud.
