INDEPENDENT AUDITOR'S REPORT

To the Board of Directors Goleta Sanitary District Goleta, California

Report on the Financial Statements

Opinions

We have audited the accompanying financial statements of the business-type activities and the major fund of the Goleta Sanitary District, as of and for the fiscal year ended June 30, 2024, and the related notes to the financial statements, which collectively comprise the Goleta Sanitary District's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the business-type activities and each major fund of the Goleta Sanitary District, as of June 30, 2024, and the respective changes in financial position and cash flows for the fiscal year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Goleta Sanitary District and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Goleta Sanitary District's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and *Government Auditing Standards* will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and Government Auditing Standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in
 the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Goleta Sanitary District's
 internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Goleta Sanitary District's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the schedule of proportionate share of net pension liability, the schedule of pension contributions, the schedule of changes in the net OPEB liability and related ratios, and the schedule of OPEB contributions be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Report on Summarized Comparative Information

We have previously audited the Goleta Sanitary District's 2023 financial statements, and our report dated December 22, 2023, expressed an unmodified opinion on those audited financial statements. In our opinion, the summarized comparative information presented herein as of and for the fiscal year ended June 30, 2023, is consistent, in all material respects, with the audited financial statements from which it has been derived.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated December 11, 2024, on our consideration of the Goleta Sanitary District's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the District's internal control over financial reporting and compliance.

Santa Maria, California December 11, 2024

Moss, Leng & Haugheim LLP

Goleta Sanitary District Management's Discussion and Analysis For the Year Ended June 30, 2024

As management of the Goleta Sanitary District, we offer readers of the Goleta Sanitary District's financial statements this narrative overview and analysis of the financial activities of the Goleta Sanitary District for the fiscal year ending June 30, 2024. We encourage readers to consider the information presented here in conjunction with the audit report.

Financial Highlights

- The assets and deferred outflows of resources of the Goleta Sanitary District exceeded its liabilities and deferred inflows of resources by \$105,650,211 and \$101,271,421 at the close of the June 30, 2024 and 2023 fiscal year, respectively.
- The District's total net position increased by \$3,378,790 as of June 30, 2023 and increased by \$2,285,086 as of June 30, 2023.
- The combination of operating and non-operating revenues, less operating expenses results in net income in the amount of \$3,044,763 as of June 30, 2024 and net income in the amount of \$1,949,849 as of June 30, 2023.
- Capital contributions were made to the District in the amount of \$334,027 and \$335,237 as of June 30, 2024 and 2023, respectively.
- The District borrowed Capital Improvement funds and is now carrying debt in the amount of \$13,076,100. These funds are for the construction of the Biosolids & Energy Strategic Plan Improvements.

Overview of the Financial Statements

This discussion and analysis are intended to serve as an introduction to the Goleta Sanitary District's basic financial statements. The Goleta Sanitary District's basic financial statements comprise two components: 1) government-wide financial statements, and 2) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves.

The statement of net position presents information on all the Goleta Sanitary District's assets, deferred outflows of resources, deferred inflows of resources, and liabilities, with the difference reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Goleta Sanitary District is improving or deteriorating.

The statement of revenues, expenses, and changes in net position presents information showing how the District's net position changed during the most recent fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows.

Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. earned but unused vacation leave, or compensated absences).

The Goleta Sanitary District has only business-type activities and that business-type activity is the provision of sanitation services to the community.

The financial statements can be found on pages 13-16 of this audit report.

Fund Financial Statements. A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Goleta Sanitary District, like other state and local

governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The various funds are presented in the accompanying financial statements as a proprietary fund category, enterprise fund type.

Notes to the financial statements. The notes provide additional information that is essential to a full understanding of the data provided in the financial statements. The notes to the financial statements can be found on pages 17-34 of this report.

Other information. In addition to the basic financial statements and accompanying notes, this report also presents certain required supplementary information concerning the Goleta Sanitary District's progress in funding its obligation to provide pension benefits to its employees on pages 35-38.

Government-wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the Goleta Sanitary District, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$104,650,211 and \$101,271,421 at the close of June 30, 2024 and 2023, respectively.

By far the largest portion of the Goleta Sanitary District's net position, \$67,473,489 (64.5 percent) and \$67,370,165 (66.5 percent) as of June 30, 2024 and 2023, respectively, reflects its investment in capital assets (e.g., land, buildings, machinery, and equipment), less any related debt used to acquire those assets that is still outstanding. The Goleta Sanitary District uses these capital assets to provide services to citizens; consequently, these assets are not available for future spending. Although the Goleta Sanitary District's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities.

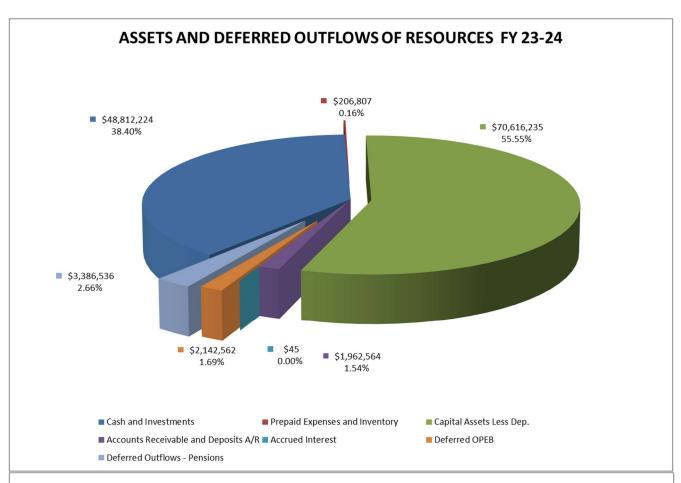

GOLETA SANITARY DISTRICT'S NET POSITION

	June 30, 2024	June 30, 2023
Current Assets Noncurrent Assets Total Assets	\$ 33,759,288 <u>87,838,587</u> \$ 121,597,875	\$ 30,937,301 <u>87,026,361</u> <u>\$ 117,963,662</u>
Deferred Outflows of Resources	\$ 5,529,098	\$ 7,172,050
Current Liabilities Noncurrent Liabilities Total Liabilities	\$ 2,185,758 17,574,018 \$ 19,759,776	\$ 2,190,758 20,143,767 \$ 22,334,525
Deferred Inflows of Resources	\$ 2,716,986	\$ 1,529,766
Net Position: Net Investment in Capital Assets Restricted Restricted for Construction Unrestricted	\$ 67,473,489 7,288,998 9,933,354 	\$ 67,370,165 5,521,196 12,792,956 15,587,104
Total Net Position	<u>\$ 104,650,211</u>	\$ 101,271,421

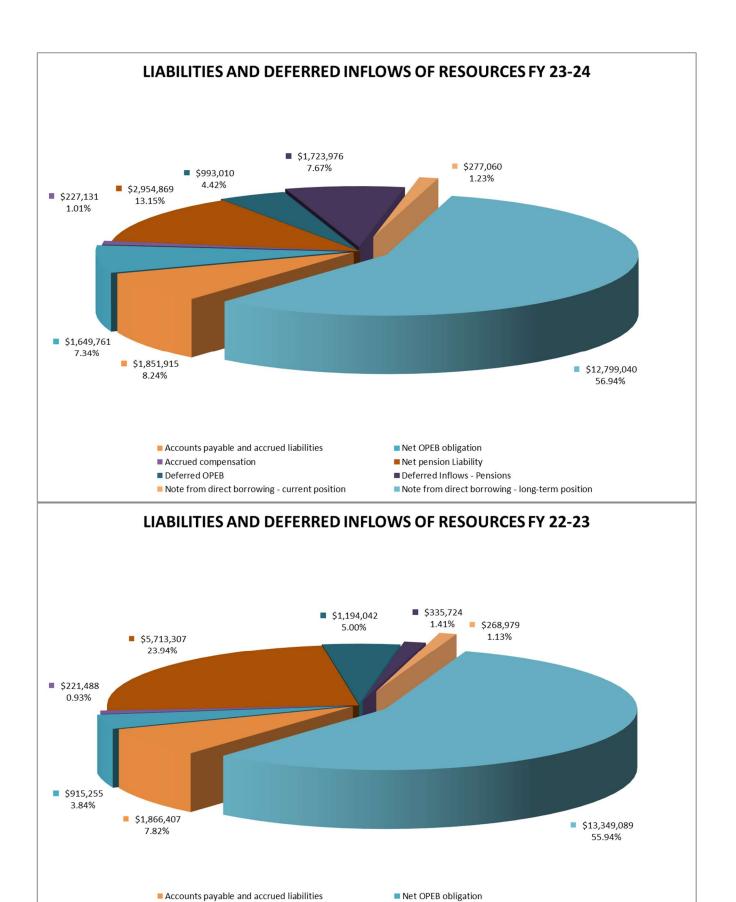

Additional portions of the Goleta Sanitary District's net position, \$7,288,998 (7.0%) and \$5,521,196 (5.5%) as of June 30, 2024 and 2023, respectively, represents resources that are subject to external restrictions on how they may be used. The other restricted resource is the construction loan proceeds, \$9,933,254 (9.5%) \$12,792,956 (12.6%) as of June 30, 2024 and 2023, respectively. The remaining balance of unrestricted net position, \$19,954,370 and \$15,587,104 as of June 30, 2024 and 2023, respectively, may be used to meet the government's ongoing obligations to citizens and creditors.

At the end of the current fiscal year, the Goleta Sanitary District is able to report positive balances in all three categories of net position. The same situation held true for the prior fiscal year.

Charts comparing the Assets and Deferred Outflows of Resources and the Liabilities and Deferred Inflows of Resources of the last two fiscal years are represented on the following two pages.

■ Net pension Liability

■ Deferred Inflows - Pensions

■ Note from direct borrowing - long-term position

■ Accrued compensation

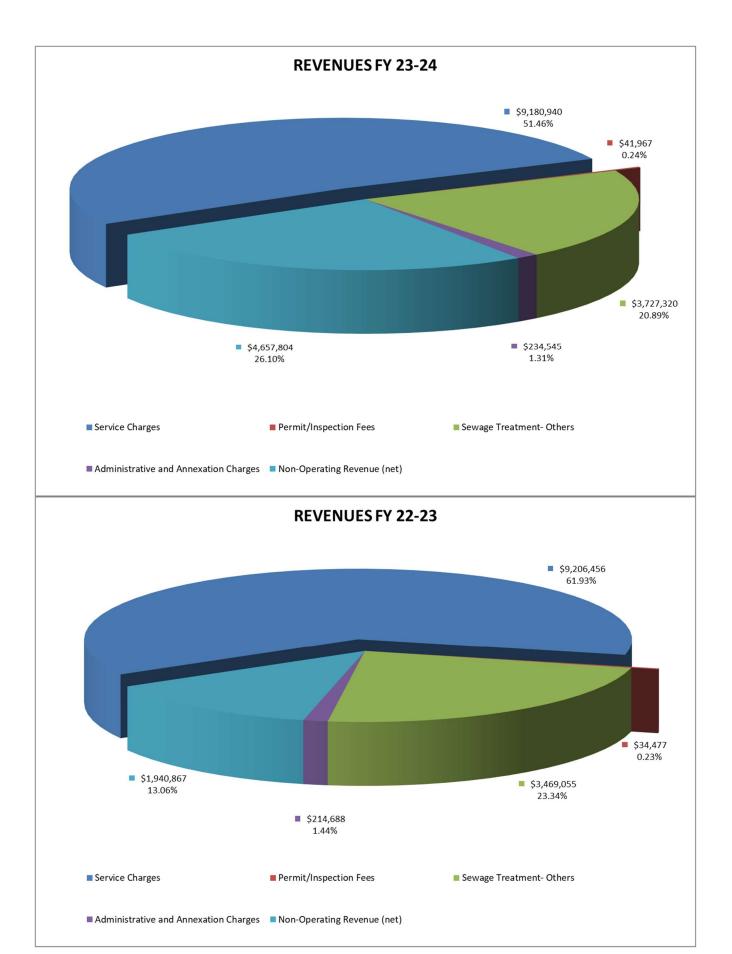

■ Note from direct borrowing - current position

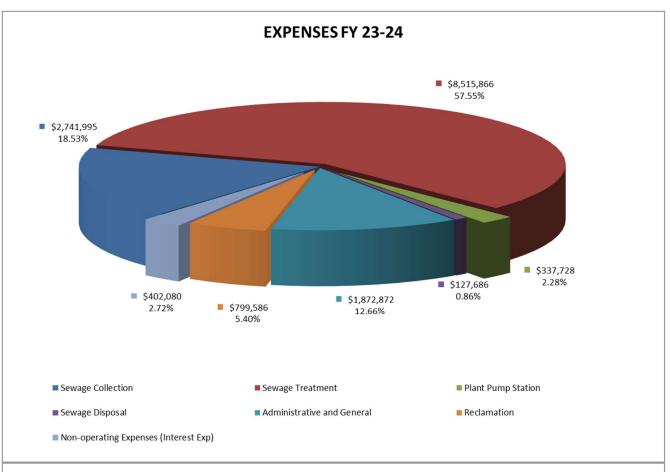

■ Deferred OPEB

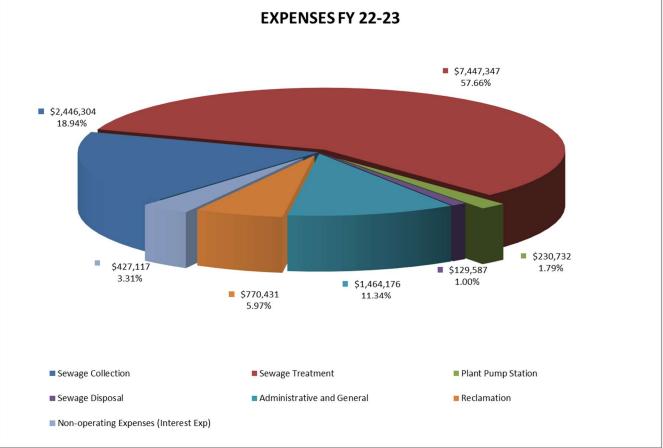

Business-type activities. The business-type activities increased the Goleta Sanitary District's net position by \$3,378,790 and \$2,285,086 as of June 30, 2024 and 2023, respectively. The key elements are as follows: operating and nonoperating revenues exceeded operating and nonoperating expenses by \$3,044,763 as of June 30, 2024 whereas operating and nonoperating revenues exceeded operating and nonoperating expenses by \$1,949,849 as of June 30, 2023. Capital contributions to the District's system totaled \$334,027 and \$335,237 as of June 30, 2024 and 2023, respectively. This is a net decrease of \$1,210 in Capital contributions as of June 30, 2024. The total revenues and capital contributions exceeded expenses during the 2023-2024 fiscal year. The District's construction in progress value of \$7,736,705 has been recorded as capitalized amounts as detailed in Note 4 on page 24.

Capital Asset and Debt Administration

Capital Assets. The Goleta Sanitary District's net investment in capital assets for its business-type activities as of June 30, 2024 and June 30, 2023 amounts to \$67,473,489 and \$67,370,165 (net of accumulated depreciation). This investment in capital assets includes land, buildings, systems, improvements, machinery, and equipment.

Major capital asset events during the current fiscal year included the following:

The Collections department's Asset Management Plan and Capital Improvement Plan were booked as completed, and their share of the new dump trailer. The department continued to hire contracted sewer spot repairs during the fiscal year and replenished the manhole covers and frames supply.

Treatment plant projects included: Biosolids pad resurfacing, the plant communications upgrade, solids building transfer pumps, air relief valve replacements, Neuros VFD, Vehicle Lift, and a share of the new Dump Trailer were recorded as complete. In addition, the Plant Lift Station project was completed mid-fiscal year.

Administration building office has the addition of two offices underway.

The Reclamation Facility also had completed capital asset projects: CCC Sample motor pump replacement and the PID control project.

Construction in progress projects include asset management and capital asset projects for Treatment Plant. The treatment plant also has ongoing projects related to biosolids handling and biosolids to energy projects.

Additional information on the Goleta Sanitary District's capital assets can be found in Note 4 on pages 24 and 25 of this report.

Long-term liabilities. At the fiscal year-end, June 30, 2024, the Goleta Sanitary District held current and long-term liabilities related to the BESP project loan. Information on long-term liabilities can be found in Note 5 on page 25 and the discussion in Note 10 on page 33 of this report.

Economic Factors and Next Year's Budgets and Rates

The District sets its user rate schedule to cover the total O&M costs and accommodate an annual contribution to its depreciation reserve fund. The District reviewed and adjusted its sewer service rates for FY 2018-19 and FY 2019-20 using a CPI index to accommodate increased O&M costs due to inflation. No adjustments since then have been made.

Other Post-Employment Benefits

The District provides other post-employment benefits (OPEB) through the California Employers' Retiree Benefit fund which is administered by CalPERS. In 2009, the District joined the CalPERS medical program. An actuarial was performed during the 2023-2024 fiscal year to complete a valuation of the District's postemployment medical program with a measurement date of June 30, 2023, compliant under GASB Statement No. 75. The purpose of the valuation is to determine the value of the expected postretirement benefits for current and future retirees and the net OPEB benefit cost of the fiscal year ending June 30, 2024. GASB Statement No. 75 has many accounts and features that are similar to GASB Statement No. 68 related to pensions. The actuarial report prepared during Fiscal Year 2023-2024 noted that the plan net OPEB was a liability of \$1,649,761. Actual cash contributions to CERBT for Plan year 23-24 came to \$407,907 in the form of direct payments to CERBT, reimbursements to retirees, and direct premium payments to CalPERS. Details can be found in Note 9 beginning on page 30 of this report.

Requests for Information

This financial report is designed to provide a general overview of the Goleta Sanitary District's finances for all those with an interest in the government's finances. Questions concerning any of the information provided in this report or requests for additional financial information should be addressed to the General Manager, Goleta Sanitary District, One William Moffett Place, Goleta, CA 93117.

NOTE 1 - REPORTING ENTITY

The Goleta Sanitary District (District) was formed in 1942 to provide sewage service for the unincorporated community of Goleta. In 2002, the City of Goleta was incorporated as a general law city of the State of California. The original plant site was owned by the District and the University of California at Santa Barbara. The District is now the sole owner of the plant and the site.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. Measurement Focus, Basis of Accounting, and Financial Statement Presentation

The basic financial statements of the Goleta Sanitary District have been prepared in conformity with accounting principles generally accepted in the United States of America ("US GAAP"). The Governmental Accounting Standards Board ("GASB") is the accepted standard-setting body for governmental accounting financial reporting purposes.

The accounts of the District are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprise of assets, liabilities, fund equity, revenues, and expenses. This system permits separate accounting for each established fund for purposes of complying with applicable legal provisions, Board of Director's ordinances and resolutions, and other requirements. The accounts have also been maintained in accordance with the California State Controller's uniform system of accounts.

The District reports its activities as an enterprise fund, which is used to account for operations that are financed and operated in a manner similar to a private business enterprise, where the intent of the District is that the costs (including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges. The enterprise fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized in the accounting period in which they are earned and expenses are recognized in the period incurred.

The District distinguishes operating revenues and expenses from those revenues and expenses that are non-operating. Operating revenues are those revenues that are generated by wastewater services while operating expenses pertain directly to the furnishing of those services. Non-operating revenues and expenses are those revenues and expenses generated that are not directly associated with the normal business of supplying wastewater treatment services.

B. Plant Capacity Rights

In 1950, the District entered into an agreement with the University of California at Santa Barbara for the construction and mutual use of a treatment plant and sewer lines. Since that time, three other agencies have acquired capacity rights in the sewage treatment facilities.

For the fiscal year, agreements were in effect for the following capacity rights:

	Capacity Rights	Capacity Rights in
	in Plant	Ocean Outfall Line
Goleta Sanitary District	47.87%	55.81%
Goleta West Sanitary District	40.78%	35.00%
University of California at Santa Barbara	7.09%	4.70%
City of Santa Barbara	2.84%	2.60%
County of Santa Barbara	1.42%	1.89%
	100.00%	100.00%

C. **Budgetary Procedures**

Budgetary information is not presented because the District is not legally required to adopt a budget. Although not legally required, an annual budget is prepared, which includes estimates for the District's principal income sources to be received during the fiscal year, as well as estimated expenses and cash reserves needed for operations.

D. Deposits and Investments

For purpose of the Statement of Cash Flows, the District considers all highly liquid investments (including restricted assets) with a maturity period, at purchase, of three months or less to be cash equivalents.

As a governmental entity other than an external investment pool in accordance with GASB Statements No. 31 and 72, the District's investments are stated at fair value except for interest-earning investment contracts.

E. Prepaid Costs

Payments to vendors for services that will benefit periods beyond June 30, 2024, are recorded as prepaid items. The District utilizes the consumption method of accounting for purchases, and accounts for prepaid costs in the period that the benefit was received and recognizes expenses as consumed.

F. Inventories

Inventories are priced using the lower of cost or market method, determined on a first-in, first-out basis. Inventories consist of expendable supplies, spare parts, and fittings.

G. Capital Assets

Capital assets, which include property, plant equipment, and infrastructure assets, are reported in the District's enterprise fund. Capital assets are defined by the District as assets with an initial, individual cost of more than \$2,500.

As the District constructs or acquires additional capital assets each period, they are capitalized and reported at historical cost. The reported value excludes normal maintenance and repairs which are essentially amounts spent in relation to capital assets that do not increase the capacity or efficiency of the item or extend its useful life beyond the original estimate. In the case of donations, the District values these capital assets at the original estimate.

Construction in Progress – The District occasionally constructs capital assets for its own use in the plant operations and within its sewer collection system. The costs associated within these projects are accumulated in a construction in progress account while the project is being developed. Once the project is completed, the entire cost of the constructed assets is transferred to the capital assets account and depreciated over the estimated useful life of the capital assets.

Capital assets are depreciated using the straight line method over estimated useful lives as follows:

Collection Lines50 yearsBuildings40 yearsPumping and Treatment Equipment10-25 yearsOffice Equipment3-10 years

H. Compensated Absences Liability

Employees are entitled to accumulate vacation leave at a rate of two, three, four, or five weeks per year, depending on the number of years of service completed. Vacation leave is fully vested and any unused leave will be paid to employees upon termination of employment. Employees are also entitled to accumulate comp time when they work overtime, they are called back to work, or they are on standby. The rates of the accrual vary by employees and no employee can accumulate more than 40 hours of comp time.

In accordance with accounting principles generally accepted in the United States of America, the liability is reflected on the Statement of Net Position and the current fiscal year allocation has been expensed. The balance at June 30, 2024 and 2023 was \$227,131 and \$221,488 respectively.

I. Restricted Assets

Amounts shown as restricted assets have been restricted by either bond indenture, by law, or contractual obligations to be used for specified purposes, such as servicing bonded debt and construction of capital assets.

J. Capital Contributions

Capital contributions represent utility plant additions contributed to the District by property owners, other agencies, or developers. Depreciation of contributed utility plant assets are charged to operations.

K. Uncollectible Accounts

Uncollectible accounts are determined using the allowance method based upon prior experience and management's assessment of the collectability of specific existing accounts and are included in the net accounts receivable.

L. Property Taxes

Tax levies are limited to 1% of full market value (at time of purchase) which results in a tax rate of \$1.00 per \$100 assessed valuation, under the provisions of Proposition 13. Tax rates for voter-approved indebtedness are excluded from this limitation.

Property taxes are attached annually on January 1 proceeding the fiscal year for which the taxes are levied. The fiscal year begins July 1 and ends June 30 of the following year. Taxes are levied on both real and unsecured personal property as it exists at that time. Liens against real estate, as well as the tax on personal property, are not relieved by subsequent renewal or change of ownership.

Tax collections are the responsibility of the county tax collector. Taxes and assessments on secured and utility rolls, which constitute a lien against the property, may be paid in two installments; the first is due on November 1 of the fiscal year and is delinquent if not paid by December 10; and the second is due February 1 of the fiscal year and is delinquent if not paid by April 10. Unsecured personal property taxes do not constitute a lien against real property unless the taxes become delinquent. Payment must be made in one installment, which is delinquent if not paid by August 31 of the fiscal year. Significant penalties are imposed by the County for late payments.

The District does not receive a substantial amount of property taxes. For the fiscal years ended June 30, 2024 and 2023, the District received \$228,483 and \$217,935, respectively. The District does not receive property tax from every parcel in its service area, only those parcels for which the property taxes were negotiated at the time it was annexed.

M. Use of Estimates

The financial statements have been prepared in accordance with accounting principles generally accepted in the United States of America and necessarily include amounts based on estimates and assumptions by Management. Actual results could differ from those amounts.

N. Pensions

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Goleta Sanitary District's California Public Employee's Retirement System (CalPERS) plan (Plan) and additions to/deductions from the Plans' fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

O. Other Postemployment Benefits (OPEB)

For purposes of measuring the net OPEB liability and deferred outflows/inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of the District's plan (OPEB Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

P. Deferred Outflows and Inflows of Resources

Pursuant to GASB Statement No. 63, "Financial Reporting of Deferred Outflows of Resources, Deferred Inflows of Resources, and Net Position," and GASB Statement No. 65, "Items Previously Reported as Assets and Liabilities," the District recognizes deferred outflows and inflows of resources.

In addition to assets, the Statement of Net Position will sometimes report a separate section for deferred outflows of resources. A deferred outflow of resources is defined as a consumption of net position by the government that is applicable to a future reporting period. The District has two items which qualify for reporting in this category; refer to Notes 8 and 9 for a detailed listing of the deferred outflows of resources the District has reported.

In addition to liabilities, the Statement of Net Position will sometimes report a separate section for deferred inflows of resources. A deferred inflow of resources is defined as an acquisition of net position by the District that is applicable to a future reporting period. The District has two items which qualify for reporting in this category; refer to Notes 8 and 9 for a detailed listing of the deferred inflows of resources the District has reported.

Q. **Net Position**

GASB Statement No. 63 requires that the difference between assets added to the deferred outflows of resources and liabilities added to the deferred inflows of resources be reported as net position. Net position is classified as either net investment in capital assets, restricted, or unrestricted.

Net position that is net investment in capital assets consists of capital assets, net of accumulated depreciation, and reduced by the outstanding principal of related debt. Restricted net position is the portion of net position that has external constraints placed on it by creditors, grantors, contributors, laws, or regulations of other governments, or through constitutional provisions or enabling legislation. Unrestricted net position consists of net position that does not meet the definition of net investment in capital assets or restricted net position.

R. Future Accounting Pronouncements

GASB Statements listed below will be implemented in future financial statements:

Statement No. 101	"Compensated Absences"	The provisions of this statement are effective for fiscal years beginning after December 15, 2023.
Statement No. 102	"Certain Risk Disclosures"	The provisions of this statement are effective for fiscal years beginning after June 15, 2024.
Statement No. 103	"Financial Reporting Model Improvements"	The provisions of this statement are effective for fiscal years beginning after June 15, 2025.
Statement No. 104	"Disclosure of Certain Capital Assets"	The provisions of this statement are effective for fiscal years beginning after June 15, 2025.

S. Comparative Data/Totals Only

Comparative total data for the prior fiscal year has been presented in certain accompanying financial statements in order to provide an understanding of the changes in the District's financial position, operations, and cash flows. Also, certain prior fiscal amounts may have been reclassified to conform to the current fiscal year financial statements presentation.

NOTE 3 - CASH AND INVESTMENTS

Cash and investments as of June 30, 2024 are classified in the accompanying financial statements as follows:

	2024		 2023
Cash on hand	\$	500	\$ 500
Deposits with financial institutions		43,326,363	40,224,997
Investments	-	5,485,361	7,222,790
	\$	48,812,224	\$ 47,448,287

Cash and investments listed above, are presented on the accompanying statement of net position, as follows:

		2024	2023
Cash and investments	\$	32,379,795	\$ 29,312,181
Restricted cash and investments		16,432,429	18,136,106
Total cash and investments	<u>\$</u>	48,812,224	\$ 47,448,287

The District categorizes its fair value measurements within the fair value hierarchy established by U.S. Generally Accepted Accounting Principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. These principles recognize a three-tiered fair value hierarchy. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The District's investments in LAIF and California CLASS are measured at amortized cost.

NOTE 3 - CASH AND INVESTMENTS (Continued)

Investments Authorized by the District's Investment Policy

The table below identifies the investment types that are authorized for the District by the California Government Code. The table also identifies certain provisions of the California Government Code that address interest rate risk, credit risk, and concentration of credit risk.

Disclosures Relating to Interest Rate Risk

Interest rate risk is the risk that changes in market interest rates will adversely affect the fair value of an investment. Generally, the longer the maturity of an investment, the greater the sensitivity of its fair value to changes in market interest rates. One of the ways that the District manages its exposure to interest rate risk is by purchasing a combination of shorter term and longer term investments and by timing cash flows from maturities so that a portion of the portfolio is maturing or coming close to maturity evenly over time as necessary to provide the cash flow and liquidity needed for operations.

Information about the sensitivity of the fair values of the District's investments to market interest rate fluctuations is provided by the following table that shows the distribution of the District's investments by maturity:

				2024						
			Remaining Maturity (in Months)							
	Carrying			12 Months		13-24		25-60		More than

NOTE 3 - CASH AND INVESTMENTS (Continued)

Disclosures Relating to Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of rating by a nationally recognized statistical rating organization. Presented below, is the minimum rating required by the California Government Code, the District's investment policy, or debt agreements, and the actual rating as of fiscal year end for each investment type.

				2024

	\$	7,222,790		\$	5,191,054	\$	-	\$	-	\$	2,031,736

Custodial Credit Risk

Custodial credit risk for *deposits* is the risk that, in the event of the failure of a depository financial institution, a government will not be able to recover its deposits or will not be able to recover collateral securities that are in the possession of an outside party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for deposits, other than the following provision for deposits: The California Government Code requires that a financial institution secure deposits made by state or local governmental units by pledging securities in an undivided collateral pool held by a depository regulated under State law (unless so waived by the governmental unit). The fair value of the pledged securities in the collateral pool must equal at least 110% of the total amount deposited by the public agencies. California law also allows financial institutions to secure the District's deposits by pledging first trust deed mortgage notes having a value of 150% of the secured public deposits.

Collateral for Deposits

The collateral for deposits is generally held in safekeeping by the Federal Home Loan Bank in San Francisco as the third-party trustee. The securities are physically held in an undivided pool for all California public agency depositors. The State Public Administrative Office for public agencies and the Federal Home Loan Bank maintain detailed records of the security pool which are coordinated and updated weekly.

The Treasurer, at his or her discretion, may waive the 110% collateral requirement for deposits. Deposit accounts are insured up to \$250,000.

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty (e.g. broker-dealer) to a transaction, a government will not be able to recover the value of its investment or collateral securities that are in the possession of another party. The California Government Code and the District's investment policy do not contain legal or policy requirements that would limit the exposure to custodial credit risk for investment. With respect to investments, custodial credit risk generally applies to direct investments in marketable securities through the use of mutual funds or government investment pools (such as LAIF and California CLASS).

NOTE 3 - CASH AND INVESTMENTS (Continued)

Investment in State Investment Pool

The District is a voluntary participant in the Local Agency Investment Fund (LAIF) that is regulated by the California Government Code Section 16429 under the oversight of the Treasurer of the State of California. The fair value of the District's investment in this pool is reported in the accompanying basic financial statements at the amounts based upon the District's pro-rata share of the fair value provided by LAIF for the entire LAIF portfolio (in relation to the amortized cost of that portfolio). The balance available for withdrawal is based on the accounting records maintained by LAIF, which are recorded on an amortized cost basis.

The LAIF is a special fund of the California State Treasury through which local governments may pool investments. Each entity may invest up to \$75,000,000 in the fund. Investments in LAIF are highly liquid, as deposits can be converted to cash within twenty-four hours without loss of interest. Investments with LAIF are secured by the full faith and credit of the State of California.

LAIF's and the District's exposure to risk (credit, market or legal) is not currently available. Section 16429.3 states that "money placed with the State Treasurer for deposit in the LAIF shall not be subject to impoundment or seizure by any State official or State Agency."

NOTE 4 - CAPITAL ASSETS

Capital asset activity for the fiscal year ended June 30, 2024 and June 30, 2023 were as shown below and on the following page:

NOTE 6 – NET POSITION

There are three main components of net position: Net investment in capital assets, restricted, and unrestricted. Net investment in capital assets represents the District's capital assets net of depreciation that are unencumbered by debt.

NOTES TO BASIC FINANCIAL STATEMENTS

June 30, 2024

NOTE 6 – NET POSITION (Continued)

Restricted net position consists of amounts that have legal restrictions imposed by parties outside of the reporting entity.

Unrestricted net position is a catch all for all remaining net position not accounted for in the other two categories.

The following is included in Restricted Net Position:

Reserve for Plant Capacity Expansion

This restricted reserve is related to that portion of the District's net position attributable to capacity expansion connection fees. Such fees can only be used for plant expansion. At June 30, 2024 and 2023, this restricted amount was \$7,288,998 and \$5,521,196, respectively.

Restricted for Biosolids and Energy Strategic Plan

This portion of the District's net position is the unspent portion of the installment sale note from direct borrowing and is only for use in the Biosolids and Energy Strategic Plan project. At June 30, 2024 and 2023, this restricted amount was \$9,933,354 and \$12,792,956, respectively.

NOTE 7 – RISK MANAGEMENT

The District is a member of the California Sanitation Risk Management Authority ("Authority"). The following disclosures are made in compliance with GASB Code Section J50.103:

A. Description of Joint Powers Authority

The Authority is comprised of 59 members and is organized under a Joint Exercise Powers Agreement pursuant to the California Government Code. The purpose of the Authority is to arrange and administer programs of insurance and risk management for the pooling of self-insured losses and to purchase excess insurance coverage.

Each member has a representative on the Board of Directors. Officers of the Authority are elected annually by the Board members.

B. Self-Insurance Programs of the Authority

General Liability Insurance

Annual deposits are paid by member districts and are adjusted retrospectively to cover costs. Each member district self-insures at a variable amount for each loss; however, annual premiums are set such that this self-insured retention level is funded on an annual basis through required premiums. Participating districts then share in the next shared pool layer per loss occurrence. Specific coverage includes comprehensive and general automotive liability, personal injury, contractual liability, errors and omissions, sudden and accidental pollution and employment practice liability. Separate deposits are collected from member districts to cover claims between \$0 and \$15,500,000. The pool layer is subject to retrospective adjustment. The District participates in the Authority's General Liability Program.

Workers Compensation Insurance

Annual deposits are paid by member districts and are adjusted retrospectively to cover costs. Each member district has first dollar coverage. Losses in excess of \$750,000 are covered by excess insurance purchased by the participating district, as part of the pool, to a limit of \$1 million per accident. The District participates in the Authority's Workers Compensation Program.

Property Protection

The District participates in the All Risks, Boiler and Machinery, and Flood Property Protection Program, which is underwritten by five insurance companies. The annual deposits are paid by participating member districts and are based upon value at risk and not subject to retroactive adjustments.

The Insurance Authority establishes claim liabilities based on actuarial estimates of the ultimate cost of claims that have been reported but not settled, and of claims that have been incurred but not reported.

NOTE 8 – PENSION PLAN

A. General Information about the Pension Plan

Plan Description

All qualified permanent and probationary employees are eligible to participate in the District's Miscellaneous Employee Pension Plan, cost-sharing multiple employer defined benefit plans administered by the California Public Employees' Retirement System (CalPERS). Benefit provisions under the Plans are established by State statute and District resolution. CalPERS issues publicly available reports that include a full description of the pension plans regarding benefit provisions, assumptions and membership information that can be found on the CalPERS' website.

Benefits Provided

CalPERS provides service retirement and disability benefits, annual cost of living adjustments and death benefits to plan members, who must be public employees and beneficiaries. Benefits are based on years of credited service, equal to one year of full time employment. Members with five years of total service are eligible to retire at age 50 with statutorily reduced benefits. All members are eligible for nonduty disability benefits after 10 years of service. The death benefit is one of the following: the Basic Death Benefit, the 1957 Survivor Benefit, or the Optional Settlement 2W Death Benefit. The cost of living adjustments for each plan are applied as specified by the Public Employees' Retirement Law.

The Plans' provisions and benefits in effect at June 30, 2023 (the Measurement Date), are summarized as follows:

	Miscellaneous				
	Prior to	On or after			
Hire Date	January 1, 2013	January 1, 2013			
Benefit formula	2.0% @ 55	2% @ 62			
Benefit vesting schedule	5 years service	5 years service			
Benefit payments	monthly for life	monthly for life			
Retirement age	50-63	52-67			
Monthly benefits, as a % of eligible compensation	1.426% to 2.418%	1.0% to 2.5%			
Required employee contribution rates	7.00%	8.25%			
Required employer contribution rates	13.26% + \$391,029	8.00%			

Contributions

Section 20814(c) of the California Public Employees' Retirement Law requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. Funding contributions for the Plan is determined annually on an actuarial basis as of June 30 by CalPERS. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the fiscal year, with an additional amount to finance any unfunded accrued liability. The District is required to contribute the difference between the actuarially determined rate and the contribution rate of employees. Contributions to the pension plan from the District were \$384,474 for the fiscal year ended June 30, 2024.

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions

At June 30, 2024, the District reported a liability of \$2,954,869 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2023 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2022 rolled forward to June 30, 2023 using standard update procedures. The District's proportion of the net pension liability was based on a projection of the District's long-term share of contributions to the pension plan relative to the projected contributions of all pension plan participants, actuarially determined. At June 30, 2023, the District's proportion share of net pension liability was as follows:

Proportion-June 30, 2022	0.12210%
Proportion-June 30, 2023	0.05909%
Change-increase(decrease)	-0.06301%

NOTE 8 - PENSION PLAN (Continued)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

For the fiscal year ended June 30, 2024, the District recognized pension expense of \$1,285,436. Pension expense represents the change in the net pension liability during the measurement period, adjusted for actual contributions and the deferred recognition of changes in investment gain/loss, actuarial gain/loss, actuarial assumptions or method, and plan benefits. At June 30, 2024, the District reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Defe	Deferred Outflows		red Inflows of
	of	Resources	I	Resources
Changes in assumptions	\$	178,399	\$	-
Differences between expected and actual experience		150,950		23,416
Net difference between projected and actual earnings on				
retirement plan investments		478,420		
Difference in proportions		47,649		1,559,202
Differences in actual contributions and proportionate				
share of contributions		2,146,644		141,358
District contributions subsequent to the measurement date		384,474		
	\$	3,386,536	\$	1,723,976

Deferred outflows of resources and deferred inflows of resources above represent the unamortized portion of changes to net pension liability to be recognized in future periods in a systematic and rational manner.

\$384,474 reported as deferred outflows of resources related to pensions resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the fiscal year ended June 30, 2025.

Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in the pension expense as follows:

Fiscal Year Ending June 30,	 Amount		
2025	\$ 393,277		
2026	341,999		
2027	529,082		
2028	13,728		
	\$ 1,278,086		

NOTE 8 – PENSION PLAN (Continued)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Actuarial Assumptions

The total pension liability in the June 30, 2022 actuarial valuation was determined using the following actuarial assumptions:

	Miscellaneous
Valuation Date	June 30, 2022
Measurement Date	June 30, 2023
Actuarial Cost Method	Entry-Age Actuarial Cost Method
Actuarial Assumptions:	
Discount Rate	6.90%
Inflation	2.30%
Salary Increases	Varies by Entry Age and Service
Mortality	Derived using CalPERS' Membership
	Data for all Funds (1)
Post Retirement Benefit	The lesser of contract COLA or 2.30% until
Increase	Purchasing Power Protection Allowance floor
	on purchasing power applies, 2.30% thereafter

⁽¹⁾ The mortality table used was developed based on CalPERS' specific data. The probabilities are based on the 2021 CalPERS' Experience Study for the period from 2001 to 2019. Pre-retirement and Post-retirement mortality rates include generational mortality improvement using 80% of Scale MP-2020 published by the Society of Actuaries. For more details on this table, please refer to the CalPERS' Experience Study and Review of Actuarial

Long-term Expected Rate of Return

In determining the long-term expected rate of return, CalPERS took into account long-term market return expectations as well as the expected pension fund cash flows. Projected returns for all asset classes are estimated and combined with risk estimates, are used to project compound (geometric) returns over the long term. The discount rate used to discount liabilities was informed by the long-term projected portfolio return. The expected real rates of return by asset class are as follows:

	New Strategic	Real Return
Asset Class	Allocation	(a,b)
Global Equity - cap-weighted	30.0%	4.45%
Global Equity - non-cap-weighted	12.0%	3.84%
Private Equity	13.0%	7.28%
Treasury	5.0%	0.27%
Mortgage-backed Securities	5.0%	0.50%
Investment Grade Corporations	10.0%	1.56%
High Yield	5.0%	2.27%
Emerging Market Debt	5.0%	2.48%
Private Debt	5.0%	3.57%
Real Assets	15.0%	3.21%
Leverage	-5.0%	-0.59%
Total	100.0%	

- (a) An expected inflation of 2.30% was used for this period.
- (b) Figures are based on the 2021 Asset Liability Management Study.

NOTE 8 – PENSION PLAN (Continued)

B. Pension Liabilities, Pension Expenses, and Deferred Outflows/Inflows of Resources Related to Pensions (Continued)

Discount Rate

The discount rate used to measure the total pension liability was 6.90%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

Sensitivity of the Proportionate Share of the Net Pension Liability to Changes in Discount Rate

The following represents the District's proportionate share of the net pension liability calculated using the discount rate of 6.90% percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.90 percent) or 1 percentage point higher (7.90 percent) than the current rate:

	1% Decrease	Discount Rate	1% Increase
	5.90%	6.90%	7.90%
District's proportionate share of the net			
pension plan liability	\$ 6,264,973	\$ 2,954,869	\$ 230,369

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in the separately issued CalPERS' financial reports.

C. Payable to Pension Plan

At June 30, 2024, the District had no amount outstanding for contributions to the pension plan required for the fiscal year ended June 30, 2024.

NOTE 9 – POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS

Plan Description

The District provides other post-employment benefits (OPEB) through the California Employers' Retiree Benefit Fund (CERBT), an agent multiple-employer defined benefit healthcare plan administered by the California Public Employees' Retirement System (CalPERS). Benefits are provided to employees who retire at age 50 or older with five years of eligible CalPERS service. Coverage is also provided to eligible retirees, spouses and surviving spouses. These benefits are provided per contract between the District and the employee associations. Separate financial statements of the CERBT may be obtained by writing to CalPERS at Lincoln Plaza North 400 Q Street, Sacramento, and CA 95814 or by visiting the CalPERS' website at www.calpers.ca.gov.

Funding Policy

In 2009, the District joined the CalPERS medical program. In 2022, the District contributed the full cost of retiree and spousal coverage, up to the cost of PERS Choice coverage in comparison to the "unequal contribution" approach that was used at the inception of the CalPERS medical program. The District's contribution will be based on each retiree's age and enrollment status. The contribution requirements of plan members and the District are established and may be amended by the District and the employee associations. Currently, contributions are not required from plan members.

NOTE 9 - POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

Employees Covered

As of June 30, 2022, actuarial valuation, the following current and former employees were covered by the benefit terms under the District's Plan:

Active employees	31
Inactive employees or beneficiaries currently receiving benefits	24
Total	55

Contributions

The District has a trust with the California Employers' Retiree Benefit Trust (CERBT). The District currently finances the trust by making 100% of the actuarially determined contribution.

Net OPEB Liability

The District's Net OPEB Liability was measured as of June 30, 2023 and the total OPEB liability used to calculate the Net OPEB Liability was determined by an actuarial valuation as of June 30, 2022.

Actuarial assumptions: The total OPEB liability was determined using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Discount Rate	6.00%, based on the CERBT Strategy 1 investment policy
Salary increases	3.25% plus merit component
Inflation rate	2.50%
Investment rate of return	6.00% based on CERBT Strategy 1 investment policy
Healthcare cost trend rate	5.20% for 2023 through 2034, 5.00% for 2035 through

2049, 4.50% for 2050 through 2064, and 4.00% thereafter

Assumption Changes: The discount rate was changed from 7.28% to 6.00% and the salary increases from 3.00% to 3.25%.

Discount rate. GASB Statement No. 75 requires a discount rate that reflects the following:

- a) The long-term expected rate of return on OPEB plan investments to the extent that the OPEB plan's fiduciary net position (if any) is projected to be sufficient to make projected benefit payments and assets are expected to be invested using a strategy to achieve that return;
- b) A yield or index rate for 20-year, tax-exempt general obligation municipal bonds with an average rating of AA/Aa or higher—to the extent that the conditions in (a) are not met.

The discount rate is based on a blend of the long-term expected rate of return on assets for benefits covered by plan assets and a yield or index for 20 years, tax-exempt general obligation municipal bonds with an average of AA/Aa or better for benefits not covered by plan assets.

The arithmetic long-term expected real rates of return by asset class for the next 10 years as provided in a report by JP Morgan and listed in the Investments section of this Note. For each fiscal year thereafter, returns were based on historical average index real returns over the last 30 years assuming a similar equity/fixed investment mix and a 2.50% inflation rate. Investment expenses were assumed to be 10 basis points per year. These returns were matched with cash flows for benefits covered by plan assets and the Bond Buyer 20-Bond General Obligation index was matched with cash flows not covered by plan assets to measure the reasonableness of the choice in discount rate.

Net OPEB Liability

Measurement Date	June 30, 2023	June 30, 2022
Discount Rate	6.00%	7.28%
Bond buyer 20-Bond GO Index	3.86%	2.21%

NOTE 9 - POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

Changes in the OPEB Liability

	Total OPEB Liability	Plan Fiduciary et Position	Liat	Net OPEB bility/(Asset)
Balance at June 30, 2022-Measurement Date	\$ 4,809,944	\$ 3,894,689	\$	915,255
Changes recognized for the measurement period:				
Service cost	169,774			169,774
Interest	354,608			354,608
Changes of assumptions	872,278			872,278
Contributions - employer		407,907		(407,907)

Net Changes	1,179,230	444,724		734,506
Balance at June 30, 2023-Measurement Date	\$ 5,989,174	\$ 4,339,413	\$	1,649,761

Sensitivity of the net OPEB liability to changes in the discount rate. The following presents the net OPEB liability, as well as what the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage point lower (5.00 percent) or 1 percentage point higher (7.00 percent) than the current discount rate:

	19	1% Decrease		Discount Rate		1% Increase	
	***************************************	5.00% 6.00%		7.00%			
Net OPEB Liability	\$	2,483,021	\$	1,649,761	\$	942,351	

Sensitivity of the net OPEB liability to changes in the healthcare cost trend rates. The following presents the net OPEB liability, as well as what the net OPEB liability would be if it were calculated using healthcare cost trend rates that are 1 percentage point lower (4.20 percent decreasing to 3.00 percent) or 1 percentage point higher (6.20 percent decreasing to 5.00 percent) than the current healthcare cost trend rates:

	1% Decrease	Trend Rate	1% Increase
	(4.20%	(5.20%	(6.20%
	decreasing to	decreasing to	decreasing to
	3.00%)	4.00%)	5.00%)
Net OPEB Liability	\$ 772,454	\$ 1,649,761	\$ 2,728,535

Investments

The allocation of the plan's invested assets is established by CERBT Strategy 1. The objective is to seek returns that reflect the broad investment performance of the financial markets through capital appreciation and investment income. The asset allocations and benchmarks for CERBT Strategy 1 are listed below:

		Long-Term
	Target	Expected Real
Investment Class	Allocation	Rate of Return
Equity	60.00%	5.07%
Fixed Income	32.00%	1.56%
Real Estate	8.00%	6.85%
	32	

NOTE 9 – POST EMPLOYMENT BENEFITS OTHER THAN PENSIONS (Continued)

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

For the fiscal year ended June 30, 2024, the District recognized OPEB expense of \$348,819. As of the fiscal year ended June 30, 2024, the District reported deferred outflows and deferred inflows of resources related to OPEB from the following sources:

	Deferred Outflows of Resources		Defen	Deferred Inflows of	
			R	esources	
OPEB contributions subsequent to measurement date	\$	371,722	\$	-	
Change in assumptions		760,447		895,307	
Difference between expected and actual experience		675,880		97,703	
Net difference between projected and actual earnings on					
retirement plan investments		334,513			
	\$	2,142,562	\$	993,010	

\$371,722 reported as deferred outflows of resources related to OPEB resulting from District contributions subsequent to the measurement date will be recognized as a reduction of the net OPEB liability in the fiscal year ended June 30, 2025.

OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB (Continued)

Amounts reported as deferred outflows and deferred inflows of resources will be recognized in OPEB expense as follows:

Fiscal year Ending June 30,	 Amount
2025	\$ 107,349
2026	86,984
2027	215,206
2028	43,967
2029	108,789
Thereafter	 215,535
	\$ 777,830

NOTE 10 - NOTE FROM DIRECT BORROWING

On June 23, 2022, the District entered into an installment sale agreement for direct borrowing with the Banc of America Public Capital Corporation, a Kansas corporation to issue a private financing note of \$14,135,000 to be repaid in semiannual installment payments of about \$472,024 each at a contract interest rate of 2.982% per annum for 20 years through June 2042. The financing is to be used for implementation of the District's Biosolids and Energy Strategic Plan (BESP) projects including a new 550,000 gallon digester with a 160kW generator to convert biogas to electricity and other improvements in the Plant. The note is secured by the net revenues of the District. In the event of a default, all remaining installment payments become immediately due and payable, the seller may retake possession of all equipment or require return of the equipment, and the seller may terminate the escrow agreement and apply proceeds in the escrow account to the installment payments. The installment payment schedule is as shown on the following page:

NOTE 10 - NOTE FROM DIRECT BORROWING (Continued)

Fiscal year ended June 30,	 Principal Interest				Total		
2025	\$ 277,060	\$ 194,965		\$	472,025		
2026	566,573	566,573 377,475

Total	\$ 13,076,100	\$	3,915,616	\$	16,991,716		

NOTE 11 – WASTEWATER RECLAMATION PROJECT

The District entered into an agreement, dated October 15, 1990, with the Goleta Water District for construction and operation of a wastewater reclamation project. The project provides for additional treatment of the District's wastewater and to distribute the resulting reclaimed wastewater for use by the Goleta Water District's customers.

The District agreed to provide the additional treatment facilities, which are integrated into the current treatment plant. The Goleta Water District agreed to provide the pumping and distribution facilities for the delivery of the reclaimed water.

The District has provided the site for the Reclamation Facility. The Reclamation Facility is designed to have a treatment, storage, and pumping capacity of 3.3 million gallons per day.

The agreement with the Goleta Water District provides that the Goleta Water District ultimately pay all the costs associated with the design and construction of the project, as well as the operation costs once the facility is completed. The Goleta Water District has the right to the water produced, with certain options.

The project was substantially complete and officially placed in service in August 1994.

NOTE 12 – COMMITMENTS AND CONTINGENCIES

A. Land Purchase Restrictions

On December 23, 1980, the District acquired twenty-eight (28) acres of land adjacent to the original plant site for the construction of various structures, ponds and sludge lagoons for the plant expansion project. The acquisition is subject to the condition that should the District or its successors at any time within fifty-nine (59) years cease to use the land, as defined in the deed, for the operation of a wastewater treatment plant for a continuous period of one (1) year, and the land will revert to the seller or its successor, at the acquisition price.

SCHEDULE OF PROPORTIONATE SHARE OF NET PENSION LIABILITY

Last 10 Years

As of June 30, 2024

The following table provides required supplementary information regarding the District's Pension Plan.

	2024		 2023	 2022	2022		 2020
Proportion of the net pension liability		0.02369%	0.04946%	0.04628%		0.04409%	0.04336%
Proportionate share of the net pension liability	\$	2,954,869	\$ 5,713,307	\$ 2,502,959	\$	4,797,712	\$ 4,442,628
